# 🔍 Server Files Complete Analysis

## ⚠ SABSE IMPORTANT BAAT

> [!CAUTION] Aapka Android App **`jcproadminpanel/api/japacounterpro/`** folder se API call karta hai! Base URL: `https://jcproadminpanel.hypecrews.com/api/japacounterpro/`
>
> **`api/japacounterpro/`** folder PURANA hai — app isse USE NAHI karta!

---

## 📁 Folder Structure Overview

```
public_html/
├── api/japacounterpro/          ▫ PURANA (App isse use NAHI karta)
│   ├── admin/                   ▫ Purana admin APIs
│   └── analytics/               ▫ Purana analytics APIs
│
├── jcproadminpanel/             ▫ LIVE (Sab kuch yahi se chalta hai)
│   ├── api/japacounterpro/      ▫ LIVE App APIs (Android app yahi call karta
hai)
│   │   └── analytics/           ▫ LIVE Analytics APIs
│   ├── includes/                ▫ Admin Panel shared components
│   └── *.php                    ▫ Admin Panel Web Pages
```

---

## 🟢 FOLDER 1: `jcproadminpanel/` — LIVE & ACTIVE

Yeh folder 2 kaam karta hai:

1. **Admin Panel (Web Pages)** — Browser mein open hota hai
2. **App APIs** — Android app ke liye backend endpoints

---

### 🖥 Admin Panel Pages (Browser mein kholte ho)

| File | Kya karta hai | DB Tables |
|---|---|---|
| index.php | 🔐 **Login page** — Admin username/password se login | `admins`, `admin_logs` |
| dashboard.php | 📊 **Main Dashboard** — Total Users, Jaap Counts, Today's counts, recent users (5s auto-refresh) | `users`, `challenges`, `content_pages`, `daily_counts` |
| users.php | 👥 **User Management** — Search, paginate, toggle ads, edit username, Google link/unlink, premium filter | `users` |
| ads.php | 📢 **Ads Master Switch** — | `app_settings` |

| File | Kya karta hai | DB Tables |
|---|---|---|
| | Global ads on/off toggle | |
| announcements.php | **Announcements CRUD** — Create/edit/delete announcements (info/warning/outage) | `announcements` |
| content.php | **Content Pages CRUD** — App mein dikhne wale pages manage karo | `content_pages` |
| feedback.php | ☆ **Feedback View** — User feedback dekho, search, bulk delete, toggle featured | `feedback` |
| leaderboard_manager.php | 🏆 **Leaderboard Manager** — Monthly challenge dates set karo, top 100 dekho | `leaderboard_config`, `users`, `daily_counts` |
| bots.php | **Bot Manager** — Leaderboard ke liye fake users banao/delete karo (password: `bots1234`) | `users`, `daily_counts`, `live_sessions` |
| meditation.php | **Meditation Dashboard** — Active meditators, total hours, participants (5s refresh) | via `get_meditation_stats.php` API |
| stats.php | 📈 **Real-time Stats** — Live charts, today/week/month/year counts, live users (5s refresh) | `users`, `daily_counts`, `live_sessions` |
| statistics.php | 📊 **Deep Analytics** — New/Active users trends, DAU/MAU, retention, peak hours, locations | `users`, `daily_counts`, `analytics_events` |
| admin_logs.php | 📋 **Activity Logs** — Admin ke login/page visit/actions ka record | `admin_logs` |
| reviews.php | ☆ **Public Reviews** — 4+ rating wale feedbacks dikhata hai (NO auth needed) | `feedback` |
| logout.php | **Logout** — Session destroy, redirect to login | `admin_logs` |

### *Helper/Utility Pages (One-time use)*

| File | Kya karta hai |
|---|---|
| bot_cron.php | **Cron Job** — Bots ko random counts deta hai + cleanup (key: `secret123`) |
| alter_db.php | DB migration — feedback mein |

| File | Kya karta hai |
|---|---|
| | `is_featured` column add karta hai |
| check_schema.php | Debug — table schema dikhata hai |
| insert_feedback.php | Test — 10 sample fake feedbacks insert karta hai |
| delete_feedback.php | 🗑️ AJAX — Feedback delete (feedback.php se call hota hai) |
| toggle_feedback.php | AJAX — Featured toggle (feedback.php se call hota hai) |

### *Includes (Shared Components)*

| File | Kya karta hai |
|---|---|
| config.php | DB connection + session + auto-migration |
| header.php | HTML header + navbar + admin logging |
| sidebar.php | Navigation sidebar |
| footer.php | HTML footer |
| admin_logger.php | Admin activity logging function |

---

## □ App APIs (Android App Yahi Call Karta Hai)

> [!IMPORTANT] Jab bhi aap koi API file update karo, toh **`jcproadminpanel/api/japacounterpro/`** mein karo!

| File | Endpoint | Kya karta hai | Android Method |
|---|---|---|---|
| sync_score.php | `POST` | **Core Sync** — Daily jap counts sync (GREATEST() se data loss prevent) | `ApiService.syncScore()` |
| check_username.php | `GET` | Username check + auto-register new user | `ApiService.checkUsername()` |
| login.php | `POST` | Google Sign-In login/register | `MainViewModel.kt` (OkHttp) |
| update_username.php | `POST` | Username change (device_token/google_uid verify) | `ApiService.updateUsername()` |
| get_leaderboard.php | `GET` | 🏆 Top 100 leaderboard + user rank | `ApiService.getLeaderboard()` |
| get_ad_config.php | `GET` | Ad config — global + per-user ads status | `ApiService.getAdConfig()` |

| File | Endpoint | Kya karta hai | Android Method |
|---|---|---|---|
| get_announcements.php | GET | Latest 10 announcements fetch | `ApiService.getAnnouncements()` |
| get_pages.php | GET | Content pages fetch | `ApiService.getPages()` |
| get_challenges.php | POST | Challenges fetch (currently stub/empty) | `ApiService.getChallenges()` |
| submit_feedback.php | POST | ☆ User feedback submit | `ApiService.submitFeedback()` |
| get_feedbacks.php | GET | ☆ Featured feedbacks fetch | Website/App |
| ping_meditation.php | POST | Start/Stop meditation tracking | `ApiService.pingMeditation()` |
| sync_meditation.php | POST | Batch meditation sessions sync | `ApiService.syncMeditation()` |
| get_meditation_stats.php | GET | Active meditators + total stats | Admin panel AJAX |
| stats.php | GET | 📊 Global app stats (users, counts) | `ApiService.getStats()` |

### *Analytics APIs*

| File | Endpoint | Kya karta hai | Android Method |
|---|---|---|---|
| ingest.php | POST | 📥 Batch event ingestion (count_tap, app_open etc.) | `ApiService.ingestAnalytics()` |
| heartbeat.php | POST | Live session heartbeat | `ApiService.sendHeartbeat()` |

---

## □ FOLDER 2: `api/japacounterpro/` — PURANA / UNUSED

> [!WARNING] Yeh folder ab Android app ke dwara **USE NAHI** hota! App ka BASE_URL `jcproadminpanel/api/...` pe point karta hai. Iss folder ko touch mat karo — koi effect nahi padega app pe.

Yeh folder pehle ka hai jab admin panel nahi bana tha. Isme similar files hain lekin **alag versions**:

| Folder/File | Status | Note |
|---|---|---|
| `api/japacounterpro/config.php` | Unused | Purana DB config |
| `api/japacounterpro/sync_score.php` | Unused | **Different logic** — NUKE & replace (data loss risk!) |

| Folder/File | Status | Note |
|---|---|---|
| `api/japacounterpro/get_leaderboard.php` | Unused | Purana version, different date handling |
| `api/japacounterpro/get_challenges.php` | Unused | Full logic hai (vs jcpro wala jo stub hai) |
| `api/japacounterpro/get_update_info.php` | Unused | App update checker — **SIRF yahi pe hai, jcpro mein nahi** |
| `api/japacounterpro/admin/` | Unused | Purane admin APIs |
| `api/japacounterpro/analytics/` | Unused | **Advanced versions** — aggregate, debug, live, stats, migrations |
| `api/japacounterpro/create_tables.sql` | 🏷️ Reference | DB schema definition |
| `api/japacounterpro/migrate_v2.php` | One-time | Already run |
| `api/japacounterpro/analytics/migrate_v3.php` | One-time | Already run |

> [!IMPORTANT] **Missing files in `jcproadminpanel/api/`** jo `api/` folder mein hain:
>
> - `get_update_info.php` — App update check (jcpro mein NAHI hai)
> - `update_challenge_status.php` — Challenge join/leave (jcpro mein NAHI hai)
> - `analytics/live.php` — Live users list (stats.php isse reference karta hai but missing!)
> - `analytics/stats.php` — Full analytics data (stats.php isse reference karta hai but missing!)
> - `analytics/aggregate.php` — Cron aggregation (jcpro mein NAHI hai)

---

## 🗺️ Quick Reference: "Mujhe file kahan upload karni hai?"

| Kya kar rahe ho? | Kahan upload karo? |
|---|---|
| App ka API update karna | `jcproadminpanel/api/japacounterpro/` |
| Analytics API update | `jcproadminpanel/api/japacounterpro/analytics/` |

| Kya kar rahe ho? | Kahan upload karo? |
|---|---|
| Admin Panel page edit | `jcproadminpanel/` (root) |
| Admin Panel sidebar/header | `jcproadminpanel/includes/` |
| DB config change | `jcproadminpanel/config.php` |
| Naya API banana app ke liye | `jcproadminpanel/api/ japacounterpro/` |

> [!TIP] **Simple Rule**: Sab kuch `jcproadminpanel/` ke andar! `api/` folder ko ignore karo.

---

## 🔒 Security Warnings

| Issue | File | Risk |
|---|---|---|
| Hardcoded DB credentials | `config.php` | High |
| Trivial cron key `secret123` | `bot_cron.php` | 🟡 Medium |
| Hardcoded bot password `bots1234` | `bots.php` | 🟡 Medium |
| No auth on utility scripts | `alter_db.php`, `check_schema.php`, `insert_feedback.php` | 🟡 Medium |

---

## 📊 Complete Database Tables Map

| Table | Purpose | Used By |
|---|---|---|
| `users` | All user data (username, level, counts, google, device_token, is_bot, ads_disabled) | Almost everything |
| `daily_counts` | Per-user per-day jap counts | sync_score, leaderboard, stats, bots |
| `admins` | Admin login credentials | index.php (login) |
| `app_settings` | Global settings (ads_enabled) | ads.php, get_ad_config.php |
| `announcements` | Push announcements | announcements.php, get_announcements.php |
| `challenges` | Challenge definitions | dashboard (count) |
| `user_challenges` | User-challenge participation | (currently unused in jcpro) |
| `content_pages` | Dynamic content for app | content.php, get_pages.php |
| `feedback` | User feedback + ratings | feedback.php, submit_feedback.php |

| Table | Purpose | Used By |
|---|---|---|
| `leaderboard_config` | Monthly challenge date config | leaderboard_manager.php, get_leaderboard.php |
| `live_sessions` | Currently active users | heartbeat.php, stats, bots |
| `admin_logs` | Admin activity tracking | admin_logger.php, admin_logs.php |
| `active_meditators` | Live meditation tracking | ping_meditation.php |
| `meditation_sessions` | Stored meditation records | sync_meditation.php |
| `analytics_events` | Event tracking (count_tap etc.) | ingest.php, statistics.php |
| `aggregated_stats` | Pre-computed stats | (in api/ folder only, missing in jcpro) |
| `app_updates` | App version info | (in api/ folder only, missing in jcpro) |
